WELCOME

If you have an airconditioning or refrigeration need, GaucheAir has the solution.

GaucheAir commenced trading on 1st July 1991 as a service orientated company specialising in split units, air-cooled package units, water-cooled package units and chillers. Today the company is a respected manufacturer and supplier of refrigeration and airconditioning installations ranging from simple residential applications to complex solutions on oil rigs.

The success of GaucheAir is that our business is built on the strong foundation of service excellence and our installation, service and maintenance crews pride themselves on being the best in South Africa, and this has not gone unnoticed.

Operating out of Jacobs, KwaZulu-Natal, in close proximity the Durban harbour, our services extend throughout South Africa and to neighbouring states and beyond, and our impressive client list which includes FNB, Standard Bank and Toyota, speaks for itself.

No matter how big or small your airconditioning requirements, the engineering expertise and commitment of GaucheAir will satisfy your requirements. You can rest assured that GaucheAir strives to not only give you top quality installations and service excellence, but also to do this with the welfare of the environment in mind as demanded by ISO-14001, a certification for environmental management systems which GaucheAir has attained.

As GaucheAir is not limited by any restrictive trading agreements, we are in a position to supply the equipment that best suits your application - be it from Carrier, Daikin, Samsung, Dunham Bush, York, etc., or a purpose designed and manufactured GaucheAir solution.

We thank you for your interest in GaucheAir and look forward to being of service

Graham Gauche

GRAHAM GAUCHE
CEO

VISION

GaucheAir strives to add value to the South African economy by providing the best solution for all people connected with it, whether your connection is as a client, supplier or GaucheAir representative.

STAFF

Human Capital is essential to the sustainability of any enterprise, and GaucheAir affirms this view. Our management team has a combined 100 years' experience in the airconditioning and refrigeration industry. All estimating, design and engineering, as well as the preparation of CAD drawings, are done in-house by our Engineering Department. We also have a Service Department which takes care of all maintenance for our many clients.

GaucheAir currently has a permanent staff compliment of 80 people which includes 5 qualified technicians, three duct installation crews, various piping installation crews, and split unit installation teams. GaucheAir is committed to staff improvement and at present has 10 learnership's and 14 apprentices registered with MERSETA. We are registered with FEMA (20891) with regards to workmen's compensation, Unemployment Insurance Fund, Metal Industries, MERSETA and SEIFSA.

Our Technicians area accredited with the necessary Gas Compliance Certification which is a compulsory requirement.
